

Group ERP Functional Support

Quant offers you an excellent opportunity to join our Group Finance team in the role as ERP Functional Support. You will be the focal point for the business-driven development and support. Are you ready for new challenges and want to grow with Quant?

Location: Either in Tallinn, Estonia or in Stockholm, Sweden
Employment Contract Type: Permanent, Full time

About the position

The role will be supporting and leading the functional development of our ERP (Microsoft AX Dynamics) and consolidation system (AARO) as well as working with process improvements.

As part of the Group Finance team you will be working closely together with the Quant organisation in managing and developing improvements and increasing the knowledge of the systems. This means driving new functionality as well as participating in supporting end users when needed. All with aim to ensuring processes, future endurance and efficiency.

You have a passion and a commitment for using technological platforms in an optimal and efficient way, helping end users but also working with functional requirements. All combined with accountability and a professional attitude. You will be a part of a global team where interpersonal skills and sharing knowledge is vital. You are curious, have a clear drive in your approach and are able to quickly take in new information and propose solutions. As a person you are humble and motivated by an enterpreneurial way of working.

Application:

Please apply in English with your CV and cover letter to: se-hr@quantservice.com as soon as possible. Mark your application "ERP-Functional Lead"
