No material adverse change in the prospects of the Issuer:

Other than as disclosed under Element B.13 below, there has been no material adverse change in the prospects of the Issuer since 31 December 2017.

Significant changes in the financial or trading position of the Issuer:

There has been no significant changes in the financial or trading position of the Issuer since 30 September 2018.

B.13 Recent events materially relevant to the evaluation of the solvency of the Issuer:

Since 31 December 2017, the Group's bank credit facilities were repaid in their entirety and replaced by the Senior Bonds, the EUR 28,000,000 junior secured fixed rate bonds due 2023 (the "**Junior Bonds**") and a working capital facility with Nordea Bank AB (publ) of EUR 20 million (the "**Super Senior RCF**").

Furthermore, the Issuer entered into an agreement to acquire Suffra Holding Oy, Sataservice Group Oy, Sataservice Oy and Sataservice Sähkökonehuolto Oy (together the "**Sataservice Group**") (through its subsidiary Quant Finland Oy), an industrial maintenance provider in Western and Southern Finland. The Sataservice Group is a local Finnish industrial maintenance provider with revenues of above EUR 40 million during the last twelve months, measured from March 2018, with more than 400 employees and operations on more than 14 customer sites throughout Western and Southern Finland

The Issuer issued further EUR 29.5 million under the terms and conditions for the Senior Bonds. The net proceeds from the issuance were used to acquire the Sataservice Group. The acquisition was completed on 1 August 2018.

As disclosed in the Issuer's quarterly report for the nine month period ended 30 September 2018 (incorporated by reference herein), since 31 December 2017 the Issuer has (i) incurred financing with higher servicing costs, (ii) lost a number of contracts and suffered from a number of underperforming contracts, and (iii) failed to replace such contracts with new contracts at a sufficiently high rate, which together have led to a deterioration in the gross profit, net income and cash flow of the Issuer. However, the Issuer has initiated a number of actions to mitigate this deterioration; including but not limited to actions to reduce the levels of working capital required, employ factoring solutions, implement cost reductions and pursue sales growth initiatives.

Other than as stated above, the Issuer considers that no event particular to itself and which is to a material extent relevant to the evaluation of its solvency has taken place.

- B.14 Dependence upon other entities within the group: See Element B.5 for the Group and the Issuer's position within the Group.
- A significant part of the Group's assets and revenues relate to the Issuer's subsidiaries, some of which are Material Group Companies. The Issuer and the Material Group Companies are therefore dependent upon receipt of sufficient income and cash flow related to the operations of the other companies within the Group.
- B.15 Principal activities of the Issuer: The Issuer is a holding company that does not provide or conduct any business operations, but merely functions as a holding company for the operating business of the Group, with its business comprising of group management and other group-wide functions.
- The Group is a supplier of industrial maintenance services. The Group has a presence in 29 countries and operates within industries such as pulp & paper, mining & minerals, metals, chemicals & petrochemicals, discrete manufacturing, food & beverages, oil & gas and utilities. The Group operates a business model where service agreements are awarded for a specific industrial site on an on-going basis. These agreements are established for a certain time period and are thereafter subject to renewal or

cancellation. Due to this business model, the Group has in accordance with the terms and conditions of the Senior Bonds selected the Subsidiary Guarantors, which together represent, alone at least 10 per cent., and together in aggregate at least, 75 per cent. of the Group's total consolidated EBITDA. Furthermore, the Parent Guarantor has been added to the group of Guarantors purely to strengthen the security granted by the Parent Guarantor which consists of security over the shares in the Issuer and any intercompany loans existing from the Parent Guarantor to the Issuer or any Subsidiary Guarantor pursuant to the terms and conditions of the Senior Bonds. The assets and liabilities of the Parent Guarantor are its holdings of the shares of the Issuer as well as intercompany loans, the consolidated financial information of the Parent Guarantor therefore mirrors the same financial position as the consolidated financial information of the Issuer. The financial statements of the Guarantors are therefore not disclosed in this Prospectus.

D. RISKS

D.2 Key risks that are specific to the Issuer and the Guarantors: The principal risks with respect to the Issuer will also represent the principal risks with respect to the Guarantors, either as individual entities or as part of the group.

- Borrowings by the Group

In addition to the Senior Bonds, the Issuer has the ability to incur indebtedness under the Super Senior RCF. The interest rate under the Super Senior RCF may fluctuate due to changes in the applicable base interest rates. A significant increase in base rates may have a material adverse effect on the Group's operations, earnings and financial position and may affect its ability to meet its payment obligations under the Group's financings.

- Global economic and market conditions

The Group's customer base is spread across several different global markets and a diversified set of market segments, the Group's customers' demand for its services is ultimately dependent on macroeconomic factors, such as the global economic situation, as well as in certain cases commodity prices.

- Digitalisation

The Group currently offers advanced technological solutions to customers, the pace of advances in technology is increasing, and any failure by the Group to keep up with such advances may result in the Group not being able to offer the most up to date technology.

- Reliance on contracts

Currently, the Group's five largest sites represent approximately 33 per cent. of its yearly revenues. Accordingly, the loss of some of these larger contracts, or a loss of a number of less significant contracts, for any and all reason, would have a significant impact on the Group's profitability. A failure to renew or to replace terminated contracts with equally profitable contracts in the short term, or at all, may lead to periods of reduced revenues and profitability as well as considerable termination costs.

- Challenging trading conditions in 2018

As disclosed in the Group's Q3 financial report, the Group has been subject to a deterioration in gross profit, net income and cash flow since 31 December 2017. The failure of the Group to remedy such deterioration through the mitigating activities put in place could have a material adverse effect on the business, operations and financial condition of the Group.

- Contract pricing risks

The main pricing models of the Group is fixed price. The sales and operating margins realised in fixed price contracts may vary from original estimates because of changes in costs, such as higher labour costs (for example) over the term of the contract. If the total effective maintenance costs are above the agreed fixed price level, the Group business will make a loss on the relevant contract

- Start-up and Shut-down costs

A large portion of the Group's risk of cost overruns, which significantly impact the profitability of contracts, arise at the start-up and/or termination stages of a contract, or in periods of site shut-down during the contract term.

- Subcontractors and suppliers

The Group's ability to service its customers depends in part on the availability of local employees and subcontractors and suppliers. The business generally depends upon recruiting sufficient human resources for a project for the period of the contract and a synchronized and timely flow of services to its sites in carrying out its services. If the Group cannot secure appropriate subcontractors and logistical support for a specific job, it may have an adverse effect on services provided to the customer.

- Damages incurred in the negligent performance of the services

The Group is generally liable for damages that are incurred in the negligent performance of its services by its employees or subcontractors, sometimes without a monetary cap, such as in the case of losses incurred through gross negligence or wilful misconduct. The liability for damages incurred in the performance of the Group's services may have a material adverse effect on the Group's business, results, earnings and financial position.

- Competition

The Group currently faces competition from both global and local providers of maintenance services and is also facing the risk of its customers choosing to insource the services provided by the Group rather than outsourcing them to the Group, for whatever reason. There is a risk that an increase in competition, a loss of competitiveness, or a shift towards insourcing will lead to a loss of existing contracts or difficulties in procuring new or replacement contracts.

- Work environment issues

Given the Group's business activities, it cannot be ruled out that work environment incidents and work place accidents will occur in the future, which could lead to claims or penalties against Group companies

- Bribes, corruption and competition authorities

The Group and the sub-contractors used by the Group, operate in several different industries and markets in its provision of maintenance services, and accordingly may be exposed to a risk of unethical or illegal behaviour.

- Transaction and exchange rate risks in the cash flow, income statement and balance sheet

The Group reports in EUR but has revenues in several currencies, based on the jurisdictions in which the Group has contracts. While most costs in relation to a specific contract will arise in the same currency as the contract currency, the Group is exposed through its

global operations to unfavourable fluctuations in currency exchange rates, on the profits included in the Group's consolidated financials.

- Geographic breadth, political and economic risks related hereto and compliance with existing laws and regulations

The Group operates its business in different countries, including emerging markets, and must accordingly observe several different regulatory systems across many jurisdictions.

- Risks related to IT infrastructure

The Group depends on information technology ("IT") to manage critical business processes, including administrative functions. The Group uses IT systems for internal purposes and externally in relation to its customers. Extensive downtime of network servers, attacks by IT viruses or other disruptions or failures of information technology systems are possible and could have a negative impact on the Group's operations

- Safety

Hazard risks include occupational health and safety related risks, personnel security risks, environmental, fire and other catastrophe risks, natural phenomenon risks and premise security risks. The occurrence of any of these risks could result in death or injury to employees, damage to property and liability for the Group as well as substantially harm the Group's reputation.

D.3 Key risks that are specific to the Senior Bonds:

The principal risks relating to the Senior Bonds are as follows:

- The market price of the Bonds may be volatile

The market price of the Senior Bonds could be subject to significant fluctuations in response to actual or anticipated variations in the Group's operating results and those of its competitors, adverse business developments, changes to the regulatory environment in which the Group operates, changes in financial estimates by securities analysts and the actual or expected sale of a large number of Senior Bonds, as well as other factors.

- Ability to service debt

The Issuer's ability to service its debt under the Senior Bonds will depend upon, inter alia, the Group's future financial and operating performance, which will be affected by prevailing economic conditions and financial, business, regulatory and other factors, some of which are beyond the Group's control.

- Benchmark risk

The London Interbank Offered Rate ("**LIBOR**"), the Euro Interbank Offered Rate ("**EURIBOR**") and other interest rate or other types of rates and indices which are deemed to be "benchmarks" are the subject of ongoing national and international regulatory reform. Following the implementation of any such potential reforms, the manner of administration of benchmarks may change, with the result that they may perform differently than in the

past, or benchmarks could be eliminated entirely, or there could be other consequences which cannot be predicted.

- Risks relating to the intercreditor agreement, subordination of Junior Bonds and transaction security

Upon an enforcement of any transaction security in accordance with the provisions of the Intercreditor Agreement, the holders of Senior Bonds will receive proceeds from such enforcement only after obligations of the Super Senior RCF provider and any hedging providers secured on a super senior basis have been repaid in full.

- Financial Statements

The ability to assess each individual guarantor will be limited since separate financial statements for the Parent Guarantor and each of the Subsidiary Guarantors have not been included in the prospectus nor will they be made available to the bondholders.

- Risks relating to enforcement of the transaction security

If the proceeds of an enforcement are not sufficient to repay all amounts due under or in respect of the Senior Bonds or the Junior Bonds, then the holders of Senior Bonds will only have an unsecured claim against the Issuer and its remaining assets (if any) for the amounts which remain outstanding under or in respect of the Senior Bonds.

- Security granted to secure the Bonds may be unenforceable or enforcement of the security may be delayed

The insolvency laws of certain applicable jurisdictions may not be as favourable to the holders of the Senior Bonds as those of other jurisdictions and may preclude or limit the right of the Bondholders to recover payments under the Senior Bonds. The enforceability of the transaction security may further be subject to uncertainty.

- Security over assets granted to third parties

Subject to certain limitations from time to time, the Issuer may incur additional financial indebtedness and provide additional security for such indebtedness. If security is granted in favour of a third-party debt provider, the holders of Senior Bonds will, in the event of bankruptcy, reorganisation or winding up of the Issuer, be subordinated in right of payment out of the assets being subject to security provided to such third-party debt provider.

- Currency risks

The Senior Bonds will be denominated and payable in EUR. If holders of the Senior Bonds measure their investment return by reference to a currency other than EUR, an investment in the Senior Bonds will entail foreign exchange related risks due to, *inter alia*, possible significant changes in the value of the EUR relative to the currency by reference to which investors measure the return on their investments

- No action

In accordance with the terms and conditions of the Senior Bonds, the agent will represent the holders of Senior Bonds, respectively, in all matters relating to the Senior Bonds and the holders of Senior Bonds are prevented from taking actions on their own against the Issuer.

- The rights of Bondholders depend on the Agent's actions and financial standing

By subscribing for, or accepting the assignment of, any Senior Bonds, each holder of a Senior Bond will accept the appointment of the agent or the agent under the Junior Bonds (being on the issue date in each case Nordic Trustee & Agency AB (publ)), respectively, to act on its behalf and to perform administrative functions relating to the Senior Bonds. The agent shall have, *inter alia*, the right to represent the holders of Senior Bonds in all court and administrative proceedings in respect of the Bonds.

- Bondholders' meetings

There is a risk that the actions of the majority in matters resolved upon by the holders of Seniors Bonds will impact a specific holder of the same class's rights in a manner that is undesirable for some of the holders of the Senior Bonds.

E. OFFER

E.2b	Reasons for the offer and use of proceeds:	The net proceeds have been used to (i) refinance existing senior debt, (ii) finance general corporate purposes, (iii) finance transaction costs, and (iv) (in respect of the First Subsequent Bond Issue only) the acquisition of Suffra Holding Oy and its subsidiaries.
E.3	Description of the terms and conditions of the offer:	Not Applicable. This Prospectus does not contain an offer.
E.4	Description of any interest to the offer including conflicting interests:	Not Applicable. There are no material interests or conflict of interests.
E.7	Estimated expenses charged to the investor:	Not Applicable. No expenses have been charged to the investor.

RISK FACTORS

An investment in the Bonds involves inherent risks, and a number of these risk factors and uncertainties may adversely affect the Issuer and the Group. If any of these risks or uncertainties actually come true, the business, operating results and financial position of the Group could be materially and adversely affected, which could have a material adverse effect on the Group's ability to meet its obligations (including payment of interest and repayment of principal) under the Terms and Conditions. In this section a set of risk factors are described, both general risks pertaining to the Group's business operations and risks relating to the Bonds as financial instruments. The set of risks presented herein are not exhaustive, and other risks not discussed herein, not currently known or not currently considered to be material, may also affect the Group's future operations, performance and financial position, and consequently the Group's ability to meet its obligations under the Terms and Conditions. Potential investors should consider carefully the information contained in this section, together with all other information contained in this Prospectus, and make an independent evaluation before making an investment in the Bonds.

The risk factors below are not ranked in order of significance.

Risks related to the Group

Borrowings by the Group

In addition to the indebtedness incurred under the Bonds, the Group will have the ability to incur indebtedness, *inter alia*, under a super senior revolving credit facility (the “**Super Senior RCF**”) with Nordea Bank AB (publ) as lender (the “**Super Senior RCF Provider**”). Funding under the Super Senior RCF, as well as any other debt incurred by the Group in compliance with the limits set out in the terms and conditions for the Bonds, may result in interest costs which may be higher than the returns gained by the investments made by the Group. Borrowing money to make investments will increase the Group's exposure to higher interest expenses. Should interest expenses become higher than the returns made on investments made by the Group, the Group's profitability will be adversely affected and as a result this would adversely impact its ability to service said interest expenses. Furthermore, interest on the Group's borrowings is generally determined on a floating rather than a fixed basis and accordingly is subject to fluctuations in the applicable benchmark interest rate. Interest rates are currently close to historic low levels and any significant increase in base rates may have a material adverse effect on the Group's operations, earnings and financial position and may affect its ability to meet its payment obligations under the Group's financings including the Bonds.

Interest rates are affected by factors that are beyond the control of the Group, including but not limited to the interest rate policies of governments and central banks. An increase in interest rates would entail an increase in the Group's interest obligations, which could adversely affect the Group's operations, financial position, earnings and results. While the Group does not currently hedge its interest rate exposure, the Group may in the future enter into interest rate hedging contracts. However, it is possible that (if implemented) such future hedging will not provide the Group with sufficient protection against the adverse effects of interest rate movements. Moreover, the success of any hedging activities would be highly dependent on the accuracy of the Group's assumptions and forecasts. Erroneous estimations that affect such assumptions and forecasts may have a material effect on the Group's operations, financial position, earnings and results.

Global economic and market conditions

The Group's business is highly dependent on its customers' demand for its services and their ability to meet their payment obligations under existing contracts. Consequently, the Group's revenues are to a large extent dependent on the strength of the markets its customers are engaged in. While the Group's customer base is spread across several different global markets and a diversified set of market segments, the Group's customers' demand for its services is ultimately dependent on macroeconomic factors, such as the global economic situation, as well as in certain cases commodity prices. Such factors, as well as interest rates, exchange rates, productivity, inflation levels and unemployment levels, are outside the Group's control.

A lengthy economic downturn or a sustained loss of consumer confidence in the markets in which the Group's customers operate could result in customer payment defaults, or termination of existing customer contracts, as well as a general decrease in the demand for the Group's services. Any such loss of revenue or contracts or drop

in demand for the Group's services may have a material adverse impact on the Group's business, earnings, results or financial position.

Digitalisation

In an increasingly digitalised world, one of the Group's focus areas to ensure long term success and profitability is to stay ahead of technological advances and to offer cutting edge technology as part of its services. While the Group currently offers advanced technological solutions to customers, the pace of advances in technology is increasing, and any failure by the Group to keep up with such advances may result in the Group not being able to offer the most up to date technology, and/or to fall behind the products and services offered by its competitors. This may lead to a loss of existing business and/or fewer competitive advantages when competing for new customers. It may also lead to a loss of effectiveness and ability to analyse maintenance and production data for improvement, thereby affecting its business and consequently may have a material adverse impact on the Group's business, earnings, results and financial position.

Reliance on contracts

As a maintenance services business, the Group is highly dependent on retaining its customer portfolio as well as its ability to attract new customers on a regular basis to secure both short- and long-term profitability. Currently, the Group's five largest sites represent approximately 33 per cent. of its yearly revenues. Accordingly, the loss of some of these larger contracts, or a loss of a number of less significant contracts, for any and all reason, would have a significant impact on the Group's profitability. Moreover, a number of the Group's contracts may be terminated on short notice, and/or are being close to their contractual end of term. Therefore, the Group is exposed to losing contracts on short notice potentially leading to a long lead time before such contracts can be replaced. A failure to renew or to replace terminated contracts with equally profitable contracts in the short term, or at all, may lead to periods of reduced revenues and profitability as well as considerable termination costs. Accordingly, any termination of existing contracts, prematurely or otherwise, may have a material adverse effect on the Group's business, earnings, results and financial position.

The Group is also reliant on its customers' willingness to meet their payment obligations on a timely basis. As contracts come closer to their termination date, customers become less incentivised to meet their payment obligations and it may become more difficult to receive payments. Any failure by customers to pay according to their contractual obligations may lead to expensive and time-consuming litigation and in certain cases payments due to the Group may not be commercially possible to recover and, should any of these events occur, they may have a material adverse effect on the Group's business, earnings, results and financial position.

The Group aims to ensure that proper limitation of liability provisions are included in all of its customer contracts, and that appropriate insurance protection is maintained throughout its operations. However, deficiencies in such protections, for example due to poorly drafted contracts, or unforeseen or uninsurable events, such as accidents caused by the Group's employees or subcontractors, negligent work carried out by the Group's operations, the inability to perform the work stipulated in customer contracts or events outside the Group's control, may lead to unforeseen costs payable by the Group and/or entitle customers to terminate contracts with the Group ahead of schedule, leading to loss of revenues, which in each case may not be recoverable under existing insurance or other protections. In addition, certain events caused by the Group's actions, such as breaches of applicable laws and regulations, would be unlikely to be covered by applicable insurances and may hence lead to a payment obligation for the Group which in turn may have a material adverse effect on the Group's financial position.

In addition, there is a risk that the customer may undergo a change of control during the term of a contract or during the negotiation stages for a new contract or renewal of existing contracts. Any change of control is likely to reset the relationship with the customer and make renewal of an existing contract more challenging, and/or may require the pitch process for a new or renewed contract to start again. Any such change of control may result in the loss of contracts and as a result may have a material adverse effect on the business, operation and financial condition of the Group.

Challenging trading conditions in 2018

As disclosed in the Issuer's quarterly report for the nine month period ended 30 September 2018 (incorporated by reference herein), since 31 December 2017 the Issuer has (i) incurred financing with higher servicing costs,

(ii) lost a number of contracts and suffered from a number of underperforming contracts, and (iii) failed to replace such contracts with new contracts at a sufficiently high rate, which together have led to a deterioration in the gross profit, net income and cash flow of the Issuer. The Issuer has initiated a number of actions to mitigate this deterioration; including but not limited to actions to reduce the levels of working capital required, employ factoring solutions, implement cost reductions and pursue sales growth initiatives. However, in the event that the effect of these mitigating factors fails to achieve the expected level of improvement in results and consequently the position of the Issuer deteriorates further, this could have a material adverse effect on the business, operations and financial condition of the Group.

Contract pricing risks

One of the main pricing models of the Group is fixed price and a significant portion of the Group's contracts follow that model. The sales and operating margins realised in fixed price contracts may vary from original estimates because of changes in costs, such as higher labour costs (for example over time), higher spare parts and maintenance consumables costs, and/or higher external services (sub-contractor) costs, as well as excessive contract start-up costs and higher than expected shut-down costs over the term of the contract. While the Group has compiled an extensive qualitative and quantitative database of industry benchmarks over recent decades, resulting in a robust pricing process, if the total effective maintenance costs are above the agreed fixed price level (for example for the reasons set out above), the Group business will make a loss on the relevant contract, and such loss individually or in aggregate could have a material negative impact on the Group's operations, financial position, earnings and ability to make payments under the Bonds.

In certain cases, a cost-plus pricing model is used as an alternative to the fixed price model. In such cases, to win a contract award, the Group may not be able to apply a profit margin in delivering its services which it considers to be satisfactory.

Such pressure towards lower margins, both in the case of cost plus or fixed price contracts, could have a negative impact on the Group's operations, financial position, earnings and ability to make payments under the Bonds.

Furthermore, in certain developing regions, the pricing of the Group's contracts is subject to considerable risk from inflation. Any misjudgement of the effects of indexing, or an inability to include proper price indexing factors in contracts, may expose the Group to significant losses in relation to specific contracts and, should such risks materialise, could have a material adverse effect on the Group's operations, financial position, results and earnings.

Start-up and Shut-down costs

A large portion of the Group's risk of cost overruns, which significantly impact the profitability of contracts, arise at the start-up and/or termination stages of a contract, or in periods of site shut-down during the contract term.

During the start-up phase at new sites, the mobilisation of a project entails a number of extraordinary costs involved in setting up the team of employees and sub-contractors as well as the infrastructure (including IT infrastructure) and assessment of the site in order to effectively offer and provide the Group's services. Cost overruns may lead to a loss of contract profitability and even termination of contracts.

Furthermore, during the Group's long-term contracts, customers will from time to time shut down their sites to undertake significant maintenance projects and activities. The intensity of the services provided by the relevant Group company is often significantly increased during such shut-downs, and accordingly the costs to the Group are significantly higher during these periods. In the event that a contract does not accurately price the costs of such shut-downs and include restrictions on the number of shut-downs covered during a contract's life, the duration of such shut-downs and the scope of work to be covered during such shut-downs, the Group may experience considerable overruns in costs thereby affecting the profitability of a contract.

Moreover, when a contract is terminated there are many associated costs, such as demobilisation of the infrastructure, redundancy costs and relocation costs. Such costs are normally either stated in the contract to be paid for by the customer or included as a cost when calculating the business case. However, if there are any weaknesses or uncertainties in the contract following the negotiation thereof, or in the calculation of the business

case, these costs may not always be fully covered. Such circumstances will result in unbudgeted costs, and thus lower or negative margin for the contract.

Any significant decrease in profitability or losses resulting from overruns relating to the start-up or demobilization phases of a contract or shut-downs during the life of the contract could have a material adverse effect on the Group's operations, financial position, results and earnings.

The Group depends on the financial health of its customers

The Group's customers may face financial or other difficulties which may impact their operations and cause them to reduce the level of services or cancel the contract, which could adversely affect the Group's business and results of operations. Customers may also respond to any price increase that the Group may implement by reducing, or even terminating, their purchase of services from the Group, which could result in reduced sales and increased costs for the Group. If sales of the Group's services to one or more of its largest customers, and/or many of its smaller customers, are reduced, this reduction may have a material adverse effect on the Group's business, financial position, and results of operations. Any bankruptcy or other business disruption involving one of the Group's significant customers could also materially and adversely affect the Group's business, financial condition and results of operations.

Subcontractors and suppliers

The Group's ability to service its customers depends in part on the availability of local employees and subcontractors and suppliers. The business generally depends upon recruiting sufficient human resources for a project for the period of the contract and a synchronized and timely flow of services to its sites in carrying out its services. If the Group cannot secure appropriate subcontractors and logistical support for a specific job, it may have an adverse effect on services provided to the customer. Further, the use of subcontractors requires the Group to monitor its so called "back-to-back" protection, i.e. to make sure that any claim from a customer against the Group that relates to work carried out by the subcontractor, can be passed on to the subcontractor. Should the Group be unable to sufficiently monitor or control the actions of subcontractors, or to receive compensation from the subcontractor in the event of losses, this may result in a material adverse effect on the Group's business, results, earnings and financial position.

Furthermore, the Group's business is carried on in several widely spread jurisdictions, and in some there is only one contract in each jurisdiction. Accordingly, it is difficult for the Group to benefit from any economies of scale, resulting in large start-up and closing costs at the beginning and end of contracts, respectively. The successful growth of the Group's business is partially dependent on the ability to minimise these costs or to increase coverage in certain jurisdictions to be able to benefit from the synergies resulting from having multiple contracts in the same jurisdiction. Any inability to successfully utilise the Group's business in each relevant jurisdiction may have a material adverse effect on the Group's business, results, earnings and financial position.

Damages incurred in the negligent performance of the services

The Group is generally liable for damages that are incurred in the negligent performance of its services by its employees or subcontractors, sometimes without a monetary cap, such as in the case of losses incurred through gross negligence or wilful misconduct. Should the Group not have sufficient and/or adequate insurance coverage in place or should the back-to-back protection as mentioned above not be sufficient to cover any losses, the liability for damages incurred in the performance of the Group's services may have a material adverse effect on the Group's business, results, earnings and financial position.

Competition

The Group currently faces competition from both global and local providers of maintenance services and is also facing the risk of its customers choosing to insource the services provided by the Group rather than outsourcing them to the Group, for whatever reason. There is a risk that an increase in competition, a loss of competitiveness, or a shift towards insourcing will lead to a loss of existing contracts or difficulties in procuring new or replacement contracts. Increased competition is also likely to reduce profit margins by pushing down the prices the Group can charge for its services. The Group's competitiveness also depends upon its ability to anticipate future market changes and trends and to rapidly react on existing and future market needs.

As tendering for new maintenance agreements often is partly based on references to earlier achievements, a failure to respond to changes in the marketplace could result in dilution of the Group's brand and reputation as a leader in its field, which could have an adverse effect on its ability to be awarded new contracts. If the Group fails to meet the competition from new and existing companies or fails to react to market changes or trends, there is a risk that this may have a material adverse effect on the Group's business, results, earnings and financial position.

Dependency on key employees

To a significant degree, the Group is dependent on the knowledge, experience and commitment of its employees for continued development and in all aspects of the operations of the Group. The Group is also dependent on key individuals at management level. Continued training of employees is a key focus to ensure that it has enough employees with the technical skills required to provide the level of service expected by customers and to be able to transfer to new roles as required. Without a successful training and development programme, there is a higher risk that the Group does not have enough skilled employees or is not able to retain key individuals, resulting in adverse effects on the Group's business, earnings and financial position. Furthermore, a successful recruitment strategy is crucial to the success of the business and, regardless of such strategy, there is a risk that the Group will not be able to recruit new, qualified key employees to the extent that the Group wishes or on terms favourable to the Group. Any failure to successfully recruit enough, qualified employees, particularly at the start-up stage but also to continue to provide services to customers throughout a contract, or failure to develop and retain existing employees may have a material adverse effect on the Group's operations, financial position, results and earnings.

Potential issues pertaining to transfer of businesses

When the Group enters into a contract with a customer, a set of employees employed by the customer, mainly working with maintenance at the customer sites, are frequently transferred to the Group by way of a transfer of business or otherwise (depending on jurisdiction) and thus become employees of the Group. There are comprehensive requirements to observe in relation to a transfer of business and transfer of employees. Thus, it cannot be ruled out that claims relating to transfers of employees could be made towards the Group, by employees and trade unions, which could have a material adverse effect on the Group's financial position.

Employee reductions

In the event that a customer contract is terminated, the Group may no longer require the services of its employees in a given jurisdiction. There is a risk that the Group may need to make the remainder of such employees redundant and in some cases cover the cost of such redundancy. Furthermore, in the event of an unplanned termination of a contract, the Group may not be able to plan such redundancy process and may not be able to complete the process within the term of the contract, in which case the Group has continuing personnel costs which are not covered by the related contract until it can finalise such redundancy process. Any such exposure to additional costs in relation to a redundancy situation, or prolonged employment of redundant employees entails an economic exposure for the Group which may have a material adverse effect on the Group's business, results, earnings and financial position.

Potential employment related issues in different geographical areas

The Group employs employees in many of different countries, and is subject to several different employment requirements to comply with in the different jurisdictions regarding, *inter alia*, pensions, salaries, work hours, vacation, restructuring, termination etc. In addition, the Group also needs to cooperate and maintain good relationships with trade unions and works councils in the different jurisdictions. Should the Group not comply with mandatory employment regulations or demands from employees and trade unions, there is a risk that strikes, disputes and other actions are arranged, which may negatively affect the Group and its activities. A breach of mandatory employment regulations could also result in sanctions, damages and/or negative publicity.

Work environment issues

The nature of the Group's business carries certain risks from a work environmental perspective. The Group has compliance functions in place, such as risk assessment, employees working exclusively with work environmental matters and incident reporting systems. The Group has, since 2015, been subject to two visits from the Swedish Work Environment Authority. None of the visits resulted in any work environment injunctions

or work environment orders. However, given the Group's business activities, it cannot be ruled out that work environment incidents and work place accidents will occur in the future, which could lead to claims or penalties against Group companies, which may have a material adverse effect on the Group's business, financial position and results.

Lack of restrictive covenants for key employees and management

Some of the key employees and employees within the management are not subject to comprehensive restrictive covenants valid post termination of employment, i.e. non-competition and non-solicitation undertakings, in their employment agreements. Therefore, the Group lacks comprehensive protection against such employees taking up competing activities or trying to solicit customers and/or employees of the Group post termination of employment which, in turn, could result in material adverse effects on the Group's business, earnings and financial position. It should be noted however that certain key employees are covered by non-competition and non-solicitation undertakings through the management incentive programme.

Work stoppages or strikes

Several Group Companies are bound by collective bargaining agreements. Upon the expiration of existing collective bargaining agreements, the Group may be subject to work stoppages, strikes or similar industrial actions. Also, it cannot be ruled out that the Group may encounter strikes or other disturbances occasioned by the Group's unionized employees.

In addition, since several Group Companies are bound by collective bargaining agreements, the Group has an obligation to ensure that benefits put forth in such collective bargaining agreement are provided. Collective bargaining agreements also normally imply that the Group has a comprehensive requirement to consult and inform the trade unions regarding, *inter alia*, significant employment related changes which the Group intends to impose. Failure to comply with this obligation to consult with relevant trade unions may imply a liability to pay punitive and economic damages, and if realised, may have a material adverse effect on the Group's financial position.

Disputes and litigations

The Group has been involved, and may be involved in the future, in various legal proceedings arising in the ordinary course of business. In the case of employee related matters, these claims include wrongful termination and employment related injuries, among other claims. Customer related claims include claims related to performance and quality of the Group's services, among other claims.

In addition, the Group is involved in a significant dispute relating to its New Zealand business. The New Zealand dispute relates to the termination of a contract between Oji Fiber Solutions (NZ) Limited ("**Oji**") and Quant New Zealand Limited ("**Quant NZ**") which lead to the redundancy of a large number of Quant NZ's employees. The majority of the related redundancy costs of Quant NZ have now been paid by Oji, although approximately 20 per cent. of those redundancy costs remain unpaid by Oji based on their objection that Quant NZ overpaid redundancy to certain employees. Quant NZ began arbitration proceedings to recover the remaining amount of approximately EUR 1.6 million. Oji is now counterclaiming and suing Quant for reimbursement of the redundancy payments made by it (amounting to approximately EUR 5 million) on the basis that the redundancy costs would be for the account of Quant NZ not Oji due to a contractual amendment made in 2004 and that Oji paid such redundancy costs in error. Furthermore, a parent company guarantee over any amounts due under the contract exists from Quant Sweden Holding AB.

Accordingly, in the event that the arbitration ruling is adverse to Quant NZ, it cannot be ruled out that the Group will be liable to repay 5 MEUR either directly from Quant NZ or from Quant Sweden Holding AB and write off 1.6 MEUR. Any such an adverse decision may have a material adverse effect on the Issuer Group's operations, financial position, earnings and, as a result, may affect its ability to make payments under the Bonds.

Other than as set out above, the Group is not involved in any material disputes. However, there is a risk that the Group will become involved in additional disputes or subject to other litigation in the future. There is a risk that eventual negative outcomes of the New Zealand dispute or any further material disputes may have a material adverse effect on the Group's business, results, earnings or financial position.

Bribes, corruption and competition authorities

The Group and the sub-contractors used by the Group, operate in several different industries and markets in its provision of maintenance services, and accordingly may be exposed to a risk of unethical or illegal behaviour. The Group's operations could be adversely affected if the Group were to become associated, even if based on unfounded claims or tenuous connections, with illegal activities or otherwise unethical business methods or become the subject of investigations by competition authorities or other regulatory authorities. Such association or investigation could result in, *inter alia*, a negative perception of the Group among its current and future customers, problems in relationships with important contracting parties, an adverse effect on the Group's ability to conduct major acquisitions or fines or sanctions from competition authorities or other regulatory authorities. Any of these circumstances, if materialised, may have a material adverse effect on the Group's business, earnings or financial position.

Insurance coverage

The Group has insurance coverage, but there is a risk that the scope of the coverage will not cover all risks that materialise within the Group's business resulting in the total amount of the Group's losses not being compensated by the Group's insurances in case of damages. Further, certain types of losses are not possible to insure and will, thus, not be covered by the Group's insurances. Hence, there is a risk that the Group will be required to pay for losses, damages and liabilities leading to adverse effects on the Group's business, earnings or financial position. Further, inability to implement adequate procedures regarding filing and notification to the relevant insurance company may lead to claims, although covered by the insurance, being barred and the Group thus not receiving any compensation. If the Group is unable to maintain adequate insurance coverage and/or adequate compliance procedures, this could have a material adverse effect on the Group's business, earnings and financial position.

Transaction and exchange rate risks in the cash flow, income statement and balance sheet

The Group reports in EUR but has revenues in several currencies, based on the jurisdictions in which the Group has contracts. While most costs in relation to a specific contract will arise in the same currency as the contract currency, the Group is exposed through its global operations to unfavourable fluctuations in currency exchange rates, on the profits included in the Group's consolidated financials. Any significant adverse fluctuations in exchange rates in relation to the currency of material contracts may have a material adverse effect on the Group's operations, financial position and results. The Group does not currently hedge its transaction and translation foreign exchange exposure.

Tax related risks

The Group's global operations are subject to a wide variety of tax jurisdictions. While the Group conducts its business in accordance with its own interpretation of applicable tax regulations and applicable requirements and decisions, there is a risk that the Group's or its advisers' interpretation, and the Group's application of, laws, provisions and judicial practice has not been, or will in the future not be, correct or that such laws, provisions and practice will be changed, potentially with retroactive effect.

If such an event should occur, the Group's tax liabilities can increase, which may have a material adverse effect on the Group's results and financial position. Revisions to tax regulations could for example comprise denied interest deductions, additional taxes on the direct or indirect sale of property and/or tax losses carried forward being forfeited, which may have a material adverse effect on the Group's results and financial position in the future.

Negative publicity

Negative publicity or announcement relating to the Group may, regardless of whether justified, deteriorate the brands' value and adversely affect the Group's relationship with existing customers and the receptiveness of potential future customers. Any such a negative effect on the reputation of the Group may have a material adverse effect on its operations, financial position, earnings and results.

Geographic breadth, political and economic risks related hereto and compliance with existing laws and regulations

The Group operates its business in different countries, including emerging markets, and must accordingly observe several different regulatory systems across many jurisdictions. Further, in developing countries in particular, the political, economic and legal systems are less predictable than in countries with more developed institutional structures. Operating in emerging markets also includes risks associated with the protection of intellectual property and reputation as an ethical corporation. Political or economic upheaval, changes to or failure to comply with laws, regulations and permits may have a material adverse effect on the Group's business, financial position and results.

Changes in legislation

Various pieces of legislations and regulations (including, without limitation, competition regulations, land law, environmental regulations and taxes) affect the business conducted by the Group. New or amended legislation and regulations could call for unexpected costs or impose restrictions on the development of the business operations which may have a material adverse effect on the Group's business, operations, earnings, results and financial position.

Intellectual property rights

The Group is actively working to protect its brands, names and domain names in the jurisdictions in which the Group operates. If the Group's protection of its trademarks and names is not sufficient or if the Group infringes (knowingly or otherwise) third party intellectual property rights, this may result in unforeseen litigation costs, penalties or other expenses any of which may have a material adverse effect on the Group's net sales, earnings and financial position.

Risks related to IT infrastructure

The Group depends on information technology ("IT") to manage critical business processes, including administrative functions. The Group uses IT systems for internal purposes and externally in relation to its customers. Extensive downtime of network servers, attacks by IT viruses or other disruptions or failures of information technology systems are possible and could have a negative impact on the Group's operations. Failure of the Group's information technology systems could cause transaction errors and loss of customers as well as sales, and could have negative consequences for the Group, its employees, and those with whom the Group does business.

Safety

Hazard risks include occupational health and safety related risks, personnel security risks, environmental, fire and other catastrophe risks, natural phenomenon risks and premise security risks. The Group has taken precautions against hazard risks through occupational health and safety standards, guidelines, education, certification principles, travel safety guidelines, emergency planning, information management security instructions as well as continuous monitoring and risk assessment work on all levels of operations. The Group has also sought to protect against hazard risks in its insurance coverage. The occurrence of any of these risks could result in death or injury to employees, damage to property and liability for the Group as well as substantially harm the Group's reputation. Accordingly, this is a risk that, if materialized, may have a material adverse effect on the Issuer Group's operations, financial position and results.

Risks relating to the Bonds

The market price of the Bonds may be volatile

The market price of the Bonds could be subject to significant fluctuations in response to actual or anticipated variations in the Group's operating results and those of its competitors, adverse business developments, changes to the regulatory environment in which the Group operates, changes in financial estimates by securities analysts and the actual or expected sale of a large number of Bonds, as well as other factors. In addition, the global financial markets have experienced significant price and volume fluctuations in the past. Should this be repeated in the future there is a risk that it will adversely affect the market price of the Bonds without regard to the Group's operating results, financial condition or prospects.

There are risks that certain "benchmarks" to which the Bonds are linked may be administered differently or discontinued in the future, which may adversely affect the value and return on such Bonds

The London Interbank Offered Rate ("**LIBOR**"), the Euro Interbank Offered Rate ("**EURIBOR**") and other interest rate or other types of rates and indices which are deemed to be "benchmarks" are the subject of ongoing national and international regulatory reform. Following the implementation of any such potential reforms, the manner of administration of benchmarks may change, with the result that they may perform differently than in the past, or benchmarks could be eliminated entirely, or there could be other consequences which cannot be predicted. For example, on 27 July 2017, the FCA announced that it will no longer persuade or compel banks to submit rates for the calculation of the LIBOR benchmark after 2021 (the "**FCA Announcement**"). The FCA Announcement indicates that the continuation of LIBOR on the current basis cannot and will not be guaranteed after 2021. The potential elimination of the EURIBOR benchmark or any other benchmarks or changes in the manner of administration of a benchmark could require an adjustment to the terms and conditions, or result in other consequences, in respect of any Bonds whose interest rate is linked to EURIBOR. Any such consequence could have a material adverse effect on the value of and return on any such Bonds.

The Bonds may not become or remain listed on the Bourse de Luxembourg of the Luxembourg Stock Exchange (or another regulated market)

Although, the terms and conditions of the Bonds provide that if the Bonds are not listed on NASDAQ Stockholm or another regulated market (such as the Bourse de Luxembourg market of the Luxembourg Stock Exchange (the "**Market**")) within 12 months of the First Issue Date and such listing is not maintained as long as the Bonds are outstanding, the Bondholders will have the right to demand that the Issuer repurchases any Bonds held by them, there can be no assurance that the Bonds will become or remain listed. If the Bonds are listed on the Market and admitted to trading on the Market and the Issuer determines that it cannot maintain such listing, the Issuer may cease to maintain such listing on the Market provided that the Bonds are listed on another exchange within 6 months of such delisting.

Although no assurance is made as to the liquidity of the Bonds as a result of listing, failure to be approved for listing or the delisting of the Bonds may have an adverse effect on a holder's ability to resell Bonds in the secondary market.

There may be no public market for the Bonds

The Bonds are new securities for which currently there is no particular trading market. The liquidity of any market for the Bonds will depend on the number of holders of those Bonds, investor interest at large and relative to the Issuer and its business segment in particular, and the interest of securities dealers in making a market in those securities and other factors. Accordingly, there can be no assurance as to the liquidity of any such market that may develop, the Bondholders' ability to sell the Bonds, or the price at which Bondholders would be able to sell the Bonds.

In addition, the Bonds have not been, and will not be, registered under the U.S. Securities Act, or under the securities laws of any other jurisdiction. The Bonds may not be transferred, offered or resold in the United States or to U.S. persons (as defined in Regulation S under the U.S. Securities Act) nor may they be transferred, offered or resold in any other jurisdiction in which the registration of the Bonds is required but has not taken place, unless an exemption from the applicable registration requirement is available or the transfer, offer or resale of the Bonds occurs in connection with a transaction that is not subject to these provisions.

Although the Issuer has applied to list the Bonds on the Luxembourg Stock Exchange for trading on the Regulated Market, there can be no assurance that a trading market for the Bonds will develop or, if one does develop, will be maintained. As a result, the Issuer cannot provide you with any assurances regarding the future development of a market for the Bonds, the ability of holders of the Bonds to sell their bonds, or the price at which such holders may be able to sell their Bonds. If such a market were to develop, the Bonds could trade at prices that may be higher or lower than the initial nominal amount depending on many factors, including prevailing interest rates, our results of operations and financial condition, political and economic developments in and affecting the countries in which the Issuer operates, risk associated with issuers of such type of securities and the market for similar securities. The initial purchasers of the Bonds have advised us that they currently

intend to make a market in the Bonds. However, the initial purchasers are not obligated to do so, and any market making with the respect to the Bonds may be discontinued at any time without notice. If an active market for the Bonds does not develop or is interrupted, the market price and liquidity of the Bonds may be adversely affected.

Ability to service debt

The Issuer's ability to service its debt under the Bonds will depend upon, *inter alia*, the Group's future financial and operating performance, which will be affected by prevailing economic conditions and financial, business, regulatory and other factors, some of which are beyond the Group's control. If the Group's operating income is not sufficient to service its current or future indebtedness, the Group will be forced to take actions such as reducing or delaying its business activities, acquisitions, investments or capital expenditures, selling assets, restructuring or refinancing its debt or seeking additional equity capital. There is a risk that the Group will not be able to carry out any of these remedies on satisfactory terms, or at all. Any such circumstances could have a material adverse effect on the Group's operations, earnings, results and financial position.

Risks relating to the intercreditor agreement, subordination of Junior Bonds and transaction security

The Issuer has issued both the Senior Bonds and the Junior Bonds.

The proceeds of any enforcement action (including but not limited to any proceeds received from any direct or indirect realisation or sale of any assets being subject to security, payments under any guarantees or proceeds received in connection with bankruptcy or other insolvency proceedings) will be applied in the following order of priority: first, against repayment of Super Senior RCF and hedges until repaid in full, secondly, against the Senior Bonds until repaid in full and thirdly, against the Junior Bonds. Furthermore, if the Issuer issues additional Senior Bonds, as is contemplated under the Terms and Conditions of the Senior Bonds, the security position of the current Bondholders upon an enforcement would be adversely affected. Although the obligations under the Bonds and certain other obligations of the Group towards the holders of Senior Bonds, the Super Senior RCF Provider, any hedging provider and certain other creditors (jointly the "**Secured Creditors**") will be secured by first priority security, there is a risk that the proceeds of any enforcement sale of the security assets will not be sufficient to satisfy all amounts then owed to the Secured Creditors.

The relation between the Secured Creditors is governed by an intercreditor agreement (the "**Intercreditor Agreement**") between, among others, the Issuer, a security agent (initially being Nordic Trustee & Agency AB (publ) (in this capacity, the "**Security Agent**")), and the Secured Creditors.

Upon an enforcement of any transaction security in accordance with the provisions of the Intercreditor Agreement, the Bondholders will receive proceeds from such enforcement only after obligations of the Super Senior RCF Provider and any hedging providers secured on a super senior basis have been repaid in full.

The Security Agent will take enforcement instructions primarily from the agent (representing the holders of the Senior Bonds (the "**Senior Bondholders**") and the agent representing the Super Senior RCF Provider (the "**SSCRF Agent**"). However, if the agent (representing the Senior Bondholders) wishes to enforce the security, such agent must first consult with the other Secured Creditors (in the event there is no agreement on the proposed enforcement action) for a period of 30 days after which the agent (representing the Senior Bondholders) may instruct the Security Agent to take such action. The other Secured Creditors may thus delay any enforcement which certain Bondholders believe to be necessary. Furthermore, the Security Agent may act in a manner that certain Bondholders believe is detrimental to their interests.

If the agent (representing the Senior Bondholders) refrains from taking any enforcement action upon an event of default under the Bonds during 2 months from the end of the 30 day period mentioned above, or the Security Agent has not received any proceeds from an enforcement within 4 months from the end of the 30 day period, the agent (representing the holders of the Junior Bonds) (the "**Junior Bondholders**", and together with the Senior Bondholders, the "**Bondholders**") may initiate enforcement actions following the expiry of such 2 month or 4 month period, as applicable.

The Bondholders and the other Secured Creditors will be represented by the Security Agent in all matters relating to the transaction security. There is a risk that the Security Agent, or anyone appointed by it, does not properly fulfil its obligations in terms of perfecting, maintaining, enforcing or taking other necessary actions in

relation to the transaction security. The transaction security is subject to certain hardening periods during which times the Secured Creditors do not fully benefit from the transaction security, or at all.

Subject to the terms of the Intercreditor Agreement, the Security Agent is entitled to enter into agreements with the Issuer or a third party or take any other actions necessary for the purpose of maintaining, releasing or enforcing the transaction security or for the purpose of settling, among others, the Bondholders' rights to the transaction security. Although there is a restriction that such actions shall not be taken if the Security Agent deems the action to be detrimental to the interests of the Bondholders, actions might be taken that may be considered to be detrimental in the view of some or all of the Bondholders.

Furthermore, the Intercreditor Agreement will contain restrictions that prohibit, *inter alia*:

- (a) secured parties to independently accelerate, seek payment and exercise other rights and powers to take enforcement actions under the finance documents;
- (b) any increase of any principal amounts under the Senior Bonds and the Junior Bonds (other than as originally anticipated within the maximum issue amounts), or increase any amount of interest, unless mutually agreed;
- (c) the Issuer from redeeming, repaying or prepaying the Junior Bonds unless the Senior Bonds are redeemed or prepaid simultaneously.

The financial statements for each Subsidiary Guarantor are not presented separately and, as a result, our consolidated financial information may be of limited use in assessing the financial position of the individual Subsidiary Guarantors

Separate financial statements for each Subsidiary Guarantor are not presented in this Prospectus, and are not required to be presented in the future. Given that under the terms of the Bonds the aggregate EBITDA of the guarantor group must represent at least 75 per cent. of the Group's total consolidated EBITDA (tested on an annual basis), the Issuer believes that the consolidated financial statements of the Group (within which all of the Subsidiary Guarantors are consolidated) presents the financial strength of the guarantor group as a whole, and that this is the material metric for investors given the joint and several and full and irrevocable nature of the Guarantee. However, the Group's consolidated financial information may be of limited use in assessing the financial position of the individual guarantor companies.

The financial statements of the Parent Guarantor are not presented separately and, as a result, the consolidated financial information may be of limited use in assessing the financial position of the Parent Guarantor

The Parent Guarantor is a holding company, whose only assets and liabilities are its holdings of the shares of the Issuer as well as intercompany loans, the consolidated financial information of the Parent Guarantor mirrors in all material respects, the same financial position as the consolidated financial information of the Issuer. Accordingly, the financial statements of the Parent Guarantor are not presented separately in this Prospectus. However, The Group's consolidated financial information may be of limited use in assessing the financial position of the Parent Guarantor.

Risks relating to enforcement of the transaction security

The transaction security may be subject to certain limitations on enforcement (in addition to those set out in the Intercreditor Agreement) and may be limited by applicable Swedish or other law governing such transaction security or subject to certain defences that may limit its validity and enforceability.

If a subsidiary of the Issuer whose shares are pledged in favour of the Secured Creditors is subject to any foreclosure, dissolution, winding up, liquidation, recapitalisation, administrative or other bankruptcy or insolvency proceedings, the shares that are subject to such share pledge may then have limited value because all of the subsidiary's obligations must first be satisfied, potentially leaving little or no remaining assets in the subsidiary for the Secured Creditors. As a result, the Secured Creditors may not recover full or any value in the case of an enforcement sale of such pledged shares. In addition, the value of the shares subject to the pledge may decline over time.

The value of any intragroup loans that are subject to the transaction security in favour of the Secured Creditors is largely dependent on the relevant debtor's ability to repay such intragroup loan. Should the relevant debtor be unable to repay its debt obligations upon enforcement of a pledge over the intragroup loans, the Secured Creditors may not recover the full value of the security granted under such intra group loans.

Subject to the prior consent of the agent representing the Super Senior RCF Provider, the pledged intragroup loans may be converted to equity and/or repaid and therefore released from the transaction security.

Since the Bondholders will receive proceeds, in accordance with the Intercreditor Agreement, from any enforcement only after the obligations of the Super Senior RCF Provider and any hedging providers secured on a super senior basis have been repaid in full, there is a risk that the agent representing the Super Senior RCF Provider consents to such conversion or prepayment in a manner that certain Bondholders believe is detrimental to their interest, resulting in such holders losing a direct claim against the relevant debtor under such intragroup loan.

If the proceeds of an enforcement are not sufficient to repay all amounts due under or in respect of the Bonds, then the Bondholders will only have an unsecured claim against the Issuer and its remaining assets (if any) for the amounts which remain outstanding under or in respect of the Bonds.

Security granted to secure the Bonds may be unenforceable or enforcement of the security may be delayed

The insolvency laws of certain applicable jurisdictions may not be as favourable to the Bondholders as those of other jurisdictions and may preclude or limit the right of the Bondholders to recover payments under the Bonds. The enforceability of the transaction security may further be subject to uncertainty. The transaction security may be unenforceable if (or to the extent), for example, the granting of the transaction security was considered to be economically unjustified for such security providers (considering, for instance, corporate benefit requirements). Furthermore, the transaction security may be limited in value, *inter alia*, to avoid a breach of the corporate benefit requirement.

The transaction security may not be perfected if the Security Agent or the relevant security provider is not able to or does not take the actions necessary to perfect or maintain the perfection of any such security. Such failure may result in the invalidity of the relevant transaction security or adversely affect the priority of such security interest, including a trustee in bankruptcy and other creditors who claim a security interest in the same transaction security.

If the Issuer is unable to make repayment under the Bonds and a court renders a judgment that the transaction security granted in respect of the Bonds is unenforceable, the Bondholders may find it difficult or impossible to recover the amounts owed to them under the Bonds. Therefore, there is a risk that the transaction security granted in respect of the Bonds might be void or ineffective. In addition, enforcement may be delayed due to any inability to sell the security assets.

Corporate benefit limitations in providing security to the holders of Bonds

In certain jurisdictions, if a limited liability company provides security for another party's obligations without deriving sufficient corporate benefit therefrom, the granting of security will require the consent of all shareholders of the grantor and will only be valid up to the amount the company could have distributed as dividend to its shareholders at the time the security was provided. If no corporate benefit is derived from the security provided, the security will be limited in validity. Consequently, any security granted by a subsidiary of the Issuer could therefore be limited in which case the Bondholders' security position could be materially adversely affected.

Risks relating to release of transaction security

The Security Agent may at any time (without the prior consent of the Bondholders), acting on instructions of the Secured Creditors, release the transaction security and guarantees in accordance with the terms of the Intercreditor Agreement. Although the transaction security shall be released *pro rata* between the Secured Creditors and continue to rank *pari passu* between the Secured Creditors, such release will impair the security interest and the secured position of the Bondholders, especially since the enforcement proceeds from the remaining transaction security are not distributed equally between the Secured Creditors.

Security over assets granted to third parties

Subject to certain limitations from time to time, the Issuer may incur additional financial indebtedness and provide additional security for such indebtedness. If security is granted in favour of a third-party debt provider, the Bondholders will, in the event of bankruptcy, reorganisation or winding up of the Issuer, be subordinated in right of payment out of the assets being subject to security provided to such third-party debt provider. In addition, if any such third-party debt provider holding security provided by the Group were to enforce such security due to a default by any company within the Group under the relevant finance documents, such enforcement could have a material adverse effect on the Group's assets, operations and, ultimately, the financial position of the Bondholders.

The terms and conditions of the Bonds will include the right to incur further Financial Indebtedness which may benefit from the transaction security, the ability to incur such further Financial Indebtedness is subject to compliance with the Incurrence Test set out in the terms and conditions which is defined as the ratio of Net Interest Bearing Debt to EBITDA. See the definitions of "*Net Interest Bearing Debt*" and "*EBITDA*" contained in the Terms and Conditions of the Bonds for further details of how the Incurrence Test is to be calculated. If the amount of Financial Indebtedness secured by the transaction security is increased, the ability of the Bondholders to recover any losses in the event of an enforcement may be materially adversely affected.

Currency risks

The Bonds will be denominated and payable in EUR. If holders of the Bonds measure their investment return by reference to a currency other than EUR, an investment in the Bonds will entail foreign exchange related risks due to, *inter alia*, possible significant changes in the value of the EUR relative to the currency by reference to which investors measure the return on their investments. This could cause a decrease in the effective yield of the Bonds below their stated coupon rates and could result in a loss to investors when the return on the Bonds is translated into the currency by reference to which the investors measure the return on their investments. Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate or the ability of the Issuer to make payments in respect of the bonds. As a result, there is a risk that investors may receive less interest or principal than expected, or no interest or principal.

Majority owner

The Issuer is controlled by a majority shareholder whose interest may conflict with those of the Bondholders, particularly if the Group encounters difficulties or is unable to pay its debts as they fall due. A majority shareholder has legal power to control a large amount of the matters to be decided by vote at a shareholder's meeting. For example, a majority shareholder will have the ability to elect the board of directors. Furthermore, a majority shareholder may also have an interest in pursuing acquisitions, divestitures, financings or other transactions that, in their judgment, could enhance their equity investments, although such transactions might involve risks to the Bondholders. There is nothing that prevents a shareholder or any of its affiliates from acquiring businesses that directly compete with the Group. If such an event were to arise, it could adversely affect the Group's operations, earnings and financial position.

According to the terms and conditions of the Bonds, if a change of control event occurs, the Bondholders have however a right of prepayment of the Bonds (put option). In such circumstances there is a risk that the Issuer will not have enough liquidity to repurchase the Bonds if the Bondholders exercise their right of prepayment, see further under Section "*Put options*" below.

Put options

According to the terms and conditions of the Bonds, the Bonds are subject to prepayment at the option of each bondholder if (i) the Bonds are not admitted to trading on Nasdaq Stockholm (or another EU regulated market) within twelve months from the First Issue Date in respect of the Bonds, (ii) any subsequent Bonds have not been admitted to listing on Nasdaq Stockholm (or another EU regulated market) within 20 days after the issuance of such subsequent Bonds, (iii) in the case of a successful admission to listing, that a period of six months has elapsed since the Bonds ceased to be admitted to listing on Nasdaq Stockholm (or another EU regulated market) without being admitted to trading on another Regulated Market, (iv) at any time prior to an Equity Listing Event, that the existing shareholders together cease to have decisive influence over the Issuer, or

(v) upon and at any time following a successful Equity Listing Event, that any person or group of persons acting in concert (other than the existing shareholders) acquire control, directly or indirectly, over more than 50 per cent. of the voting shares of the Issuer or the decisive influence over the Issuer, where decisive influence means a person having, as a result of an agreement or through the ownership of shares or ownership interests in another person (directly or indirectly) (a) a majority of the voting rights in that other person, or (b) a right to elect or remove a majority of the members of the board of directors of that person. There is, however, a risk that the Issuer will not have sufficient funds at the time of such prepayment to make the required prepayment of the Bonds which could adversely affect the Issuer, for example by causing insolvency or an event of default under the terms and conditions of the Bonds, and thus adversely affect all Bondholders and not only those that choose to exercise the option.

Risks related to early redemption

Under the terms and conditions of the Bonds, the Issuer has the right to redeem outstanding Bonds, in whole or in part, before the final redemption date, subject the terms of the Intercreditor Agreement. If the Bonds are redeemed before the final redemption date, the holders of the Bonds have the right to receive an early redemption amount which exceeds the nominal amount in accordance with the terms and conditions of the Bonds. However, there is a risk that the market value of the Bonds is higher than the early redemption amount and that it may not be possible for Bondholders to reinvest such proceeds at an effective interest rate as high as the interest rate on the Bonds and thus may only be able to do so at a significantly lower rate. It is further possible that the Issuer will not have sufficient funds at the time of the mandatory prepayment to carry out the required redemption of Bonds.

No action against the Issuer and Bondholders' representative

In accordance with the terms and conditions of the Senior Bonds, the agent will represent the holders of Senior Bonds, respectively, in all matters relating to the Senior Bonds and the holders of Senior Bonds are prevented from taking actions on their own against the Issuer. Consequently, individual holders do not have the right to take legal actions to declare any default by claiming any payment from the Issuer and may therefore lack effective remedies unless and until a requisite majority of the holders of the same class agree to take such action. However, there is a risk that an individual holder, in certain situations, could bring its own action against the Issuer (in breach of the terms and conditions of the Senior Bonds), which could adversely affect an acceleration of the Bonds or other action against the Issuer.

To enable the agent under the Junior Bonds to represent Bondholders in court, the Bondholders and/or their nominees may have to submit a written power of attorney for legal proceedings. The failure of all Bondholders to submit such a power of attorney could negatively affect the legal proceedings. Under the terms and conditions of the Junior Bonds, the agent under the Juniors Bonds will in some cases have the right to make decisions and take measures that bind all Bondholders.

Consequently, there is a risk that the actions of the agent in such matters will impact a Bondholder's rights under the terms and conditions of the Bonds in a manner that is undesirable for some of the Bondholders.

The rights of Bondholders depend on the Agent's actions and financial standing

By subscribing for, or accepting the assignment of, any Senior Bonds, each holder of a Senior Bond will accept the appointment of the agent or the agent under the Junior Bonds (being on the issue date in each case Nordic Trustee & Agency AB (publ)), respectively, to act on its behalf and to perform administrative functions relating to the Bonds. The agent shall have, *inter alia*, the right to represent the Bondholders in all court and administrative proceedings in respect of the Bonds.

However, the rights, duties and obligations of the agent as the representative of the holders of the Bonds will be subject to the provisions of the terms and conditions of the Bonds, and there is no specific legislation or market practice in Sweden (under which laws the terms and conditions of the Bonds are governed) which would govern the agent's performance of its duties and obligations relating to the Bonds. There is a risk that a failure by the agent to perform its duties and obligations properly or at all will adversely affect the enforcement of the rights of the Bondholders.

The relevant agent may be replaced by a successor agent in accordance with the terms and conditions of the Bonds. Generally, the successor agent has the same rights and obligations as the retired agent or trustee. It may

be difficult to find a successor agent on commercially acceptable terms or at all. Further, there is a risk that that a successor agent would breach its obligations under the above documents or that insolvency proceedings would be initiated against it.

There is a risk that materialisation of any of the above risks will have a material adverse effect on the enforcement of the rights of the Bondholders and the rights of the Bondholders to receive payments under the Bonds.

Bondholders' meetings

The terms and conditions of the Bonds include certain provisions regarding Bondholders' meetings. Such meetings may be held to resolve on matters relating to the Bondholders' interests. The terms and conditions of the Bonds allow for stated majorities of holders of Bonds of a certain class to bind all holders of that same class, including Bondholders who have not taken part in the meeting and those who have voted differently to the required majority at a duly convened and conducted Bondholders' meeting. Consequently, there is a risk that the actions of the majority in such matters will impact a bondholder of the same class's rights in a manner that is undesirable for some of the Bondholders.

Restrictions on the transferability of the Bonds

The Bonds have not been and will not be registered under the U.S. Securities Act of 1933, as amended, or any U.S. state securities laws. Subject to certain exemptions, a holder of the Bonds may not offer or sell the Bonds in the United States. The Issuer has not undertaken to register the Bonds under the U.S. Securities Act or any U.S. state securities laws or to affect any exchange offer for the Bonds in the future. Furthermore, the Issuer has not registered the Bonds under any other country's securities laws. It is each potential investor's obligation to ensure that the offers and sales of Bonds comply with all applicable securities laws. Due to these restrictions, there is a risk that a bondholder cannot sell its Bonds as desired. Restrictions relating to the transferability of the Bonds could adversely affect some of the Bondholders.

Risks relating to the clearing and settlement in Euroclear Sweden AB's book entry system

The Bonds are affiliated with Euroclear Sweden AB's account-based system, and no physical bonds will be issued. Clearing and settlement relating to the Bonds is carried out within Euroclear Sweden AB's book entry system as well as payment of interest and repayment of the principal. Investors are therefore dependent on the functionality of Euroclear Sweden AB's account-based system and any problems thereof could have an adverse effect on the payment of interest and repayment of principal under the Bonds.

Amended or new legislation

The terms and conditions of the Bonds are based on Swedish law in force at the date of issuance of the Bonds. There is a risk that amended or new legislation and administrative practices may adversely affect the investor's ability to receive payment under the terms and conditions of the Bonds.

16.12 Acceleration of the PIK Bonds

- (a) Upon the occurrence of an Event of Default which is continuing but subject to the terms of the Intercreditor Agreement, the PIK Agent is entitled to, on behalf of the PIK Bondholders (i) by notice to the Issuer, declare all, but not only some, of the outstanding PIK Bonds due and payable together with any other amounts payable under the Finance Documents, immediately or at such later date as the PIK Agent determines (but such date may not fall after the Final Maturity Date), and (ii) exercise any or all of its rights, remedies, powers and discretions under the Finance Documents.
- (b) The PIK Agent may not accelerate the PIK Bonds in accordance with Clause 16.12(a) by reference to a specific Event of Default if it is no longer continuing or if it has been decided, on a PIK Bondholders Meeting or by way of a Written Procedure, to waive such Event of Default (temporarily or permanently).
- (c) The PIK Agent shall notify the PIK Bondholders of an Event of Default within five (5) Business Days of the date on which the PIK Agent received actual knowledge of that an Event of Default has occurred and is continuing. The PIK Agent shall, within twenty (20) Business Days of the date on which the PIK Agent received actual knowledge of that an Event of Default has occurred and is continuing, decide if the PIK Bonds shall be so accelerated. If the PIK Agent decides not to accelerate the PIK Bonds, the PIK Agent shall promptly seek instructions from the PIK Bondholders in accordance with Clause 18 (*Decisions by PIK Bondholders*). The PIK Agent shall always be entitled to take the time necessary to consider whether an occurred event constitutes an Event of Default.
- (d) If the PIK Bondholders (in accordance with these Terms and Conditions) instruct the PIK Agent to accelerate the PIK Bonds, the PIK Agent shall promptly declare the PIK Bonds due and payable and take such actions as, in the opinion of the PIK Agent, may be necessary or desirable to enforce the rights of the PIK Bondholders under the Finance Documents, unless the relevant Event of Default is no longer continuing.
- (e) If the right to accelerate the PIK Bonds is based upon a decision of a court of law or a government authority, it is not necessary that the decision has become enforceable under law or that the period of appeal has expired in order for cause of acceleration to be deemed to exist.
- (f) In the event of an acceleration of the PIK Bonds in accordance with this Clause 16.12, the Issuer shall, subject to the Intercreditor Agreement, redeem all PIK Bonds at an amount equal to the redemption amount specified in Clause 10.3(a) for the relevant period, as applicable considering

when the acceleration occurs, and shall for the non-call period (until the First Call Date) be the price set out in sub-paragraph (ii) of Clause 10.3(a) plus accrued and unpaid interest.

17. DISTRIBUTION OF PROCEEDS

- (a) All payments by the Issuer relating to the PIK Bonds and the Finance Documents following an acceleration of the PIK Bonds in accordance with Clause 16 (*Events of Default and Acceleration of the PIK Bonds*) and any other Enforcement Proceeds shall be distributed in accordance with the terms of the Intercreditor Agreement.
- (b) Funds that the PIK Agent receives (directly or indirectly) in connection with the acceleration of the PIK Bonds or the enforcement of the Transaction Security constitute escrow funds (Sw. *redovisningsmedel*) and must be promptly turned over to the Security Agent to be applied in accordance with the Intercreditor Agreement.

18. DECISIONS BY PIK BONDHOLDERS

- (b) Any request from the Issuer or a PIK Bondholder (or PIK Bondholders) representing at least ten (10) per cent. of the Adjusted Nominal Amount (such request may only be validly made by a person who is a PIK Bondholder on the Business Day immediately following the day on which the request is received by the PIK Agent and shall, if made by several PIK Bondholders, be made by them jointly) for a decision by the PIK Bondholders on a matter relating to the Finance Documents shall be directed to the PIK Agent and dealt with at a PIK Bondholders' Meeting or by way of a Written Procedure, as determined by the PIK Agent. The person requesting the decision may suggest the form for decision-making, but if it is in the PIK Agent's opinion more appropriate that a matter is dealt with at a PIK Bondholders' Meeting than by way of a Written Procedure, it shall be dealt with at a PIK Bondholders' Meeting.
- (c) The PIK Agent may refrain from convening a PIK Bondholders' Meeting or instigating a Written Procedure if (i) the suggested decision must be approved by any person in addition to the PIK Bondholders and such person has informed the PIK Agent that an approval will not be given, or (ii) the suggested decision is not in accordance with applicable laws or regulation.
- (d) Only a person who is, or who has been provided with a power of attorney or other proof of authorisation pursuant to Clause 7 (*Right to Act on Behalf of a PIK Bondholder*) from a person who is, registered as a PIK Bondholder:

may exercise voting rights as a PIK Bondholder at such PIK Bondholders' Meeting or in such Written Procedure, provided that the relevant PIK Bonds are included in the definition of Adjusted Nominal Amount.

- (e) The following matters shall require the consent of PIK Bondholders representing at least sixty-six and two thirds ($66 \frac{2}{3}$) per cent. of the Adjusted Nominal Amount for which PIK Bondholders are voting at a PIK Bondholders' Meeting or for which PIK Bondholders reply in a Written Procedure in accordance with the instructions given pursuant to Clause 20(c):

 - (iv) amend any payment day for principal or interest amount or waive any breach of a payment undertaking, or
 - (v) amend the provisions regarding the majority requirements under these Terms and Conditions.
- (f) Any matter not covered by Clause 18(e) shall require the consent of PIK Bondholders representing more than fifty (50) per cent. of the Adjusted Nominal Amount for which PIK Bondholders are voting at a PIK Bondholders' Meeting or for which PIK Bondholders reply in a Written Procedure in accordance with the instructions given pursuant to Clause 20(c). This includes, but is not limited to, any amendment to, or waiver of, the terms of any Finance Document that does not require a higher majority (other than an amendment permitted pursuant to Clause 21(a)(i) or 21(a)(iii)), an acceleration of the PIK Bonds or the enforcement of any Transaction Security.
- (g) Quorum at a PIK Bondholders' Meeting or in respect of a Written Procedure only exists if a PIK Bondholder (or PIK Bondholders) representing at least representing at least fifty (50) per cent. of the Adjusted Nominal Amount in case of a matter pursuant to Clause 18(e), and otherwise twenty (20) per cent. of the Adjusted Nominal Amount:
- (i) if at a PIK Bondholders' Meeting, attend the meeting in person or by telephone conference (or appear through duly authorised representatives); or
 - (ii) if in respect of a Written Procedure, reply to the request.

The quorum requirement in Clause 18(g) shall not apply to such second PIK Bondholders' Meeting or Written Procedure.
- (i) Any decision which extends or increases the obligations of the Issuer or the PIK Agent, or limits, reduces or extinguishes the rights or benefits of the Issuer or the PIK Agent, under the Finance Documents shall be subject to the Issuer's or the PIK Agent's consent, as appropriate.
- (j) A PIK Bondholder holding more than one PIK Bond need not use all its votes or cast all the votes to which it is entitled in the same way and may in its discretion use or cast some of its votes only.
- (k) The Issuer may not, directly or indirectly, pay or cause to be paid any consideration to or for the benefit of any PIK Bondholder for or as inducement to any consent under these Terms and Conditions, unless such consideration is offered to all PIK Bondholders that consent at the relevant PIK Bondholders' Meeting or in a Written Procedure within the time period stipulated for the consideration to be payable or the time period for replies in the Written Procedure, as the case may be.

- (l) A matter decided at a duly convened and held PIK Bondholders' Meeting or by way of Written Procedure is binding on all PIK Bondholders, irrespective of them being present or represented at the PIK Bondholders' Meeting or responding in the Written Procedure. The PIK Bondholders that have not adopted or voted for a decision shall not be liable for any damages that this may cause other PIK Bondholders.
- (m) All reasonable costs and expenses incurred by the Issuer or the PIK Agent for the purpose of convening a PIK Bondholders' Meeting or for the purpose of carrying out a Written Procedure, including reasonable fees to the PIK Agent, shall be paid by the Issuer.
- (n) If a decision shall be taken by the PIK Bondholders on a matter relating to the Finance Documents, the Issuer shall promptly at the request of the PIK Agent provide the PIK Agent with a certificate specifying the number of PIK Bonds owned by Group Companies, irrespective of whether such person is directly registered as owner of such PIK Bonds. The PIK Agent shall not be responsible for the accuracy of such certificate or otherwise be responsible to determine whether a PIK Bond is owned by a Group Company.
- (o) Information about decisions taken at a PIK Bondholders' Meeting or by way of a Written Procedure shall promptly be sent by notice to the PIK Bondholders and published on the websites of the Issuer and the PIK Agent, provided that a failure to do so shall not invalidate any decision made or voting result achieved. The minutes from the relevant PIK Bondholders' Meeting or Written Procedure shall at the request of a PIK Bondholder be sent to it by the Issuer or the PIK Agent, as applicable.

19. PIK BONDHOLDERS' MEETING

- (a) The PIK Agent shall convene a PIK Bondholders' Meeting by sending a notice thereof to each PIK Bondholder no later than five (5) Business Days after receipt of a request from the Issuer or the PIK Bondholder(s) (or such later date as may be necessary for technical or administrative reasons).

Only matters that have been included in the notice may be resolved upon at the PIK Bondholders' Meeting. Should prior notification by the PIK Bondholders be required in order to attend the PIK Bondholders' Meeting, such requirement shall be included in the notice.
- (d) The PIK Bondholders' Meeting shall be held no earlier than fifteen (15) Business Days and no later than thirty (30) Business Days from the notice.
- (e) Without amending or varying these Terms and Conditions, the PIK Agent may prescribe such further regulations regarding the convening and holding of a PIK Bondholders' Meeting as the PIK Agent may deem appropriate. Such regulations may include a possibility for PIK Bondholders to vote without attending the meeting in person.

20. WRITTEN PROCEDURE

- (a) The PIK Agent shall instigate a Written Procedure no later than five (5) Business Days after receipt of a request from the Issuer or the PIK Bondholder(s) (or such later date as may be

necessary for technical or administrative reasons) by sending a communication to each such person who is registered as a PIK Bondholder on the Business Day prior to the date on which the communication is sent.

If the voting shall be made electronically, instructions for such voting shall be included in the communication.
- (d) When the requisite majority consents of the total Adjusted Nominal Amount pursuant to Clauses 18(e) and 18(f) have been received in a Written Procedure, the relevant decision shall be deemed to be adopted pursuant to Clause 18(e) or 18(f), as the case may be, even if the time period for replies in the Written Procedure has not yet expired.

21. AMENDMENTS AND WAIVERS

- (a) The Issuer and the PIK Agent (acting on behalf of the PIK Bondholders) may agree to amend the Finance Documents or waive any provision in a Finance Document (subject to the terms of the Intercreditor Agreement), provided that:
 - (i) following a transfer of any PIK Bonds from the Original PIK Bondholder to any other Person, in the opinion of the PIK Agent and/or as confirmed by a reputable external expert engaged by the PIK Agent (if the PIK Agent reasonably considers it necessary to engage such expert), such amendment or waiver is not detrimental to the interest of the PIK Bondholders as a group;
 - (ii) such amendment or waiver is made solely for the purpose of rectifying obvious errors and mistakes;
 - (iii) such amendment or waiver is required by applicable law, a court ruling or a decision by a relevant authority;
 - (iv) such amendment (in the reasonable opinion of the PIK Agent) will not negatively affect the PIK Bondholders or the PIK Agent and is necessary (in the reasonable opinion of the PIK Agent) for the purpose of the listing of the PIK Bonds; or
 - (v) such amendment or waiver has been duly approved by the PIK Bondholders in accordance with Clause 18 (*Decisions by PIK Bondholders*).
- (b) The consent of the PIK Bondholders is not necessary to approve the particular form of any amendment to the Finance Documents. It is sufficient if such consent approves the substance of the amendment or waiver.
- (c) The PIK Agent shall promptly notify the PIK Bondholders of any amendments or waivers made in accordance with Clause 21(a), setting out the date from which the amendment or waiver will be effective, and ensure that any amendments to the Finance Documents are published on the website of the PIK Agent in the manner stipulated in Clause 13.3 (*Publication of Finance Documents*). The Issuer shall ensure that any amendments to the Finance Documents are duly registered with the CSD and each other relevant organisation or authority.

- (d) An amendment to the Finance Documents shall take effect on the date determined by the PIK Bondholders' Meeting, in the Written Procedure or by the PIK Agent, as the case may be.

22.2 Appointment of PIK Agent

- (a) By subscribing for PIK Bonds, each initial PIK Bondholder appoints the PIK Agent to act as its agent in all matters relating to the PIK Bonds and the Finance Documents, and authorises the PIK Agent to act on its behalf (without first having to obtain its consent, unless such consent is specifically required by these Terms and Conditions) in any legal or arbitration proceedings relating to the PIK Bonds held by such PIK Bondholder including any legal or arbitration proceeding relating to the perfection, preservation, protection or enforcement of the Transaction Security and Guarantees.
- (b) By acquiring PIK Bonds, each subsequent PIK Bondholder confirms the appointment and authorisation for the PIK Agent to act on its behalf, as set forth in Clause 22.2(a).
- (c) Each PIK Bondholder shall immediately upon request provide the PIK Agent with any such documents, including a written power of attorney (in form and substance satisfactory to the PIK Agent) that the PIK Agent deems necessary for the purpose of exercising its rights and/or carrying out its duties under the Finance Documents. The PIK Agent is under no obligation to represent a PIK Bondholder that does not comply with such request.
- (d) The Issuer shall promptly upon request provide the PIK Agent with any documents and other assistance (in form and substance satisfactory to the PIK Agent), that the PIK Agent deems necessary for the purpose of exercising its rights and/or carrying out its duties under the Finance Documents.
- (e) The PIK Agent is entitled to fees for its work and to be indemnified for costs, losses and liabilities on the terms set out in the Finance Documents and the PIK Agency Agreement and the PIK Agent's obligations as PIK Agent under the Finance Documents are conditioned upon the due payment of such fees and indemnifications.
- (f) The PIK Agent may act as agent or trustee for several issues of securities by or relating to the Issuer or other Group Companies notwithstanding potential conflicts of interest.

22.3 Duties of the PIK Agent

- (a) The PIK Agent shall represent the PIK Bondholders in accordance with the Finance Documents, including, *inter alia*, holding the Transaction Security and Guarantees pursuant to the Transaction Security Documents and Guarantee and Adherence Agreement on behalf of the PIK Bondholders (in its capacity as Security Agent) and, where relevant, enforcing the Transaction Security and/or Guarantees on behalf of the PIK Bondholders (in its capacity as Security Agent). The PIK Agent is not responsible for the content, valid execution, legal validity, perfection or enforceability of the Finance Documents.
- (b) When acting in accordance with the Finance Documents, the PIK Agent is always acting with binding effect on behalf of the PIK Bondholders. The PIK Agent shall carry out its duties under the Finance Documents in a reasonable, proficient and professional manner, with reasonable care and skill.

- (c) The PIK Agent's duties under the Finance Documents are solely mechanical and administrative in nature and the PIK Agent only acts in accordance with the Finance Documents and upon instructions from the PIK Bondholders, unless otherwise set out in the Finance Documents. In particular, the PIK Agent is not acting as an advisor (whether legal, financial or otherwise) to the PIK Bondholders or any other person.
- (d) The PIK Agent is not obligated to assess or monitor the financial condition of the Issuer or compliance by the Issuer of the terms of the Finance Documents unless to the extent expressly set out in the Finance Documents, or to take any steps to ascertain whether any Event of Default (or any event that may lead to an Event of Default) has occurred. Until it has actual knowledge to the contrary, the PIK Agent is entitled to assume that no Event of Default (or any event that may lead to an Event of Default) has occurred.
- (e) The PIK Agent is entitled to delegate its duties to other professional parties, but the PIK Agent shall remain liable for the actions of such parties under the Finance Documents.
- (f) The PIK Agent shall treat all PIK Bondholders equally and, when acting pursuant to the Finance Documents, act with regard only to the interests of the PIK Bondholders and shall not be required to have regard to the interests or to act upon or comply with any direction or request of any other person, other than as explicitly stated in the Finance Documents.
- (g) The PIK Agent is entitled to engage external experts when carrying out its duties under the Finance Documents and/or related documents. Any compensation for damages or other recoveries received by the PIK Agent from external experts engaged by it for the purpose of carrying out its duties under the Finance Documents shall be distributed in accordance with Clause 17 (*Distribution of Proceeds*).
- (h) Notwithstanding any other provision of the Finance Documents to the contrary, the PIK Agent is not obliged to do or omit to do anything if it would or might in its reasonable opinion constitute a breach of any law or regulation.
- (i) If in the PIK Agent's reasonable opinion the cost, loss or liability which it may incur (including reasonable fees to the PIK Agent) in complying with instructions of the PIK Bondholders, or taking any action at its own initiative, will not be covered by the Issuer, or the PIK Bondholders (as applicable), the PIK Agent may refrain from acting in accordance with such instructions, or taking such action, until it has received such funding or indemnities (or adequate Security has been provided therefore) as it may reasonably require.
- (j) Unless it has actual knowledge to the contrary, the PIK Agent may assume that all information provided by or on behalf of the Issuer (including by its advisors) is correct, true and complete in all aspects.
- (k) The PIK Agent shall give a notice to the PIK Bondholders (i) before it ceases to perform its obligations under the Finance Documents by reason of the non-payment by the Issuer of any fee or indemnity due to the PIK Agent under the Finance Documents or the PIK Agency Agreement or (ii) if it refrains from acting for any reason described in Clause 22.3(i).

22.4 Limited liability for the PIK Agent

- (b) The PIK Agent shall not be considered to have acted negligently if it has acted in accordance with advice from or opinions of reputable external experts addressed to the PIK Agent or if the PIK Agent has acted with reasonable care in a situation when the PIK Agent considers that it is detrimental to the interests of the PIK Bondholders to delay the action in order to first obtain instructions from the PIK Bondholders.
- (c) The PIK Agent shall not be liable for any delay (or any related consequences) in crediting an account with an amount required pursuant to the Finance Documents to be paid by the PIK Agent to the PIK Bondholders, provided that the PIK Agent has taken all necessary steps as soon as reasonably practicable to comply with the regulations or operating procedures of any recognised clearing or settlement system used by the PIK Agent for that purpose.
- (d) The PIK Agent shall have no liability to the PIK Bondholders or the Issuer for damage caused by the PIK Agent when acting in accordance with instructions of the PIK Bondholders given to the PIK Agent in accordance with these Terms and Conditions.

The Issuer may, at a PIK Bondholders' Meeting convened by it or by way of Written Procedure initiated by it, propose to the PIK Bondholders that the PIK Agent be dismissed and a new PIK Agent appointed.
- (d) If the PIK Bondholders have not appointed a successor PIK Agent within ninety (90) days after (i) the earlier of the notice of resignation was given or the resignation otherwise took place or (ii) the PIK Agent was dismissed through a decision by the PIK Bondholders, the Issuer shall appoint a successor PIK Agent which shall be an independent financial institution or other reputable company which regularly acts as agent under debt issuances.
- (e) The retiring PIK Agent shall, at its own cost, make available to the successor PIK Agent such documents and records and provide such assistance as the successor PIK Agent may reasonably request for the purposes of performing its functions as PIK Agent under the Finance Documents.
- (f) The PIK Agent's resignation or dismissal shall only take effect upon the appointment of a successor PIK Agent and acceptance by such successor PIK Agent of such appointment and the execution of all necessary documentation to effectively substitute the retiring PIK Agent.

- (g) Upon the appointment of a successor, the retiring PIK Agent shall be discharged from any further obligation in respect of the Finance Documents but shall remain entitled to the benefit of the Finance Documents and remain liable under the Finance Documents in respect of any action which it took or failed to take whilst acting as PIK Agent. Its successor, the Issuer and each of the PIK Bondholders shall have the same rights and obligations amongst themselves under the Finance Documents as they would have had if such successor had been the original PIK Agent.
- (h) In the event that there is a change of the PIK Agent in accordance with this Clause 22.5, the Issuer shall execute such documents and take such actions as the new PIK Agent may reasonably require for the purpose of vesting in such new PIK Agent the rights, powers and obligation of the PIK Agent and releasing the retiring PIK Agent from its further obligations under the Finance Documents and the PIK Agency Agreement. Unless the Issuer and the new PIK Agent agrees otherwise, the new PIK Agent shall be entitled to the same fees and the same indemnities as the retiring PIK Agent.

23. APPOINTMENT AND REPLACEMENT OF THE ISSUING AGENT

Business and operations

Quant AB

The Issuer is purely a holding company that does not provide or conduct any business operations, but merely functions as a holding company for the operating business of the Group, with its business comprising of group management and group-wide functions. The Issuer's ability to make required payments of interest on its debts and funding is affected by the ability of its subsidiaries to transfer available cash resources to it. The transfer of funds to the Issuer from its subsidiaries may be restricted or prohibited by legal and contractual requirements applicable to the respective subsidiaries. Limitations or restrictions on the transfer of funds between companies within the Group may become more restrictive in the event that the Group experiences difficulties with respect to liquidity and its financial position, which may negatively affect the Group's operations, financial position and earnings and in turn the performance of the Issuer under the Bonds.

The Group

The Group is a supplier of industrial maintenance services. The Group has presence in 29 countries and operates within industries such as pulp & paper, mining & minerals, metals, chemicals & petrochemicals, discrete manufacturing, food & beverages, oil & gas and utilities. The Group offers maintenance outsourcing solutions ranging from Total Maintenance Outsourcing (where the Group takes full responsibility for maximizing the potential of all aspects of maintenance, from management to organization and execution of all site activities for corrective and preventive maintenance, as well as shut-downs, upgrades and modification) to Maintenance Management Outsourcing, Asset Class Maintenance Outsourcing and Manufacturing Services. The service is linked to the customers' production facilities and the offer includes maintenance processes and expertise, safety and digital tools, which results in improved productivity, cost of maintenance, safety and transparency.

The Group's maintenance services include the following major categories, as well as a large range of specific services typically provided as part of these or offered separately:

Total Maintenance Outsourcing

The majority of the Groups contracts are total maintenance outsourcing, meaning that the Group takes full responsibility for maximising the potential of all aspects of maintenance, from management to organization and execution of all site activities for corrective and preventive maintenance, as well as shut-downs, upgrades and modifications. The Group takes a holistic approach and commits to improving safety, productivity and energy efficiency while optimizing cost. Where relevant, the Group's responsibility goes beyond maintenance to include the operation of plant utilities, for example heat and power generation and water treatment.

Maintenance Management Outsourcing

The maintenance management outsourcing concept provides full service maintenance in the form of management. The Group takes full responsibility for the maintenance management function and commits to providing their customers with sustainable improvement in their business results. The Group is responsible for defining the maintenance functions needs, including optimization of maintenance planning; introducing maintenance processes to improve plant reliability; and designing, managing and optimizing maintenance

operations; managing plant shut-downs and improvements as well as any other changes to realize the full potential of maintenance. Additionally, the Group can manage related areas such as spare parts or plant commissioning or decommissioning.

Asset Class Maintenance Outsourcing

Asset class maintenance is similar to total maintenance in the sense that Quant takes over maintenance. However, the Group will only provide maintenance for a single equipment class. The Group takes full responsibility for all aspects of maintenance for specific classes or families of equipment. This could include electric motors, cogeneration plants, drives, instrumentation, process automation and power distribution. As an OEM independent service provider, the Group works with all types and all manufacturer's equipment to reduce downtime, improve performance, and extend equipment lifetime.

Delivering tailored digital product offerings

The Group delivers tailored digital product offerings, which is based on existing technologies within the industrial maintenance sector, avoiding lock-in with one technology that could become redundant. Furthermore the Group has develop user friendly interfaces and enables technologies to speak with each other through quantConnect™. This also enables integration and translation of all Quant digital solutions to existing ERP systems (e.g. SAP, Oracle or Microsoft), permitting sites to continue with the software solutions they are familiar with. Solutions can be tailored to contract specific needs by in-house digital engineers and implemented remotely in a cost-efficient manner.

The Market in which the Group operates

The Group has a diversified geographical footprint with stronghold in Europe. The Group has close to 3,000 employees and 92 operational sites around the world. A large share of the Groups revenues are related to process heavy industries where maintenance is of great importance and represents a significant cost. Quant may work in any industry where maintenance is a significant cost, however the industries its customers typically represent are the following ones: Pulp and Paper, Mining and Materials, Metals, Chemicals and Petrochemicals, Discrete Manufacturing, Food and Beverages, Service Stations, Oil and Gas and Utilities.

Strategic partnerships with customers

The Groups working process includes screening, feasibility studies, partnership development, mobilization and execution. First of all the Group evaluates and documents scope and boundaries, desired outcomes, resource requirements, schedule and executive sponsorship. If there is a common business fit, a feasibility study phase will be initiated. During this stage functional requirements are developed, benchmarking and gap analysis completed, and current and future states are identified along with expected benefits and a risk analysis. When proceeding to partnership development a maintenance master plan is developed to set the strategy for maintenance and reliability on site, including detailed analysis for finance, HR, legal, technical issues, and health and safety. KPIs are defined and the mobilization and transition plan created. Then the mobilization begins, where systems and networks are installed, and implementation plans are finalized for HR, facilities, supply management and accounting. A communication plan is developed to facilitate change of management and identify issues early on. In the final execution phase people are trained along with the introduction of new tools and processes. The alliance management process governs the relationship and continuous improvement programs are introduced to increase performance at the site.

Recent events

Since the last audited annual report, the Group's bank credit facilities were repaid in their entirety and replaced by the Senior Bonds, the Junior Bonds and a working capital facility with Nordea Bank AB (publ) of EUR 20 million.

Furthermore, the Issuer entered into an agreement to acquire Suffra Holding Oy, Sataservice Group Oy, Sataservice Oy and Sataservice Sähkökonehuolto Oy (together the "**Sataservice Group**"), a leading industrial maintenance provider in Western and Southern Finland. Sataservice is a strong local Finnish industrial maintenance provider with revenues of above EUR 40 million during the last twelve months, measured from March 2018, with more than 400 employees and operations on more than 14 customer sites throughout Western and Southern Finland

With effect from 1 February 2019, Olof Sand has been replaced by Johan Eriksson. Johan Eriksson's previous experience include position as CEO of Transcom Worldwide, a global supplier of outsourced contact center services and CEO of Poolia AB, a staffing and recruitment company.

As disclosed in the Issuer's quarterly report for the nine month period ended 30 September 2018 (incorporated by reference herein), since 31 December 2017 the Issuer has (i) incurred financing with higher servicing costs, (ii) lost a number of contracts and suffered from a number of underperforming contracts, and (iii) failed to replace such contracts with new contracts at a sufficiently high rate, which together have led to a deterioration in the gross profit, net income and cash flow of the Issuer. However, the Issuer has initiated a number of actions to mitigate this deterioration; including but not limited to actions to reduce the levels of working capital required, employ factoring solutions, implement cost reductions and pursue sales growth initiatives.

TAX CONSIDERATIONS

Potential investors are strongly recommended to contact their own tax adviser to clarify the individual consequences of their investment, holding and disposal of the Bonds. The Issuer makes no representations regarding the tax consequences of purchase, holding or disposal of the Bonds.

Swedish Taxation

The following summary outlines certain Swedish tax consequences relating to holders of Bonds that are considered to be resident in Sweden or non-Swedish holders having a permanent establishment in Sweden to which the Bonds are attributable. The summary is based on published case law and the laws of Sweden as currently in effect and is intended to provide general information only. It does not take into account any developments or amendments thereof after the date of this document, whether or not such developments or amendments have retroactive effect. Special tax consequences that are not described below may also apply for certain categories of taxpayers, including investment companies, mutual funds, life insurance companies and Bonds held by a partnership or as current assets in a business operation. The summary does for example not address situations where Bonds are held in an investment savings account (Sw. investeringssparkonto) or the rules regarding reporting obligations for, amongst others, payers of interest. Credit of foreign taxes is not addressed in the summary. Further, specific tax consequences may be applicable if, and to the extent, a holder of Bonds realises a capital loss on the Bonds and to any currency exchange gains or losses.

Individuals not resident in Sweden

No Swedish withholding tax or deduction is imposed or made in respect of payments to a non-tax resident individual holder of any principal amount or any amount that is considered to be interest for Swedish tax purposes.

An individual is resident in Sweden for Swedish tax purposes if the person (a) is domiciled in Sweden; (b) has permanently stayed in Sweden; or (c) has been domiciled earlier in Sweden and, after having moved abroad, continues to have an essential connection with Sweden.

Individuals resident in Sweden

Generally, all capital income (e.g. amounts that are considered to be interest for Swedish tax purposes and capital gains on the Bonds) obtained by individuals (and estates of deceased individuals) resident in Sweden for tax purposes will be taxable at a rate of 30 per cent.

If amounts that are considered to be interest for Swedish tax purposes are paid by Euroclear Sweden AB or by another legal entity domiciled in Sweden, or a Swedish branch of a non-Swedish entity, or a permanent establishment in Sweden of a non-Swedish entity, to a private individual (or an estate of a deceased individual) resident in Sweden for tax purposes, Swedish preliminary taxes (Sw. *preliminärskatt*) are normally withheld by Euroclear Sweden AB or such legal entity on such payments. Swedish preliminary taxes will normally be withheld also on other return on securities and receivables (but not capital gains), if the return is paid out together with an amount that is considered to be interest for Swedish tax purposes.

Swedish corporations

Limited liability companies and other legal entities (except partnerships and estates of deceased persons) are normally taxed on all income (including income from the disposal of the Bonds) as income from business operations at a flat rate of 21.4 per cent. (as from 1 January 2019). From 1 January 2021 the Swedish corporate income tax rate will be 20.6 per cent.

Luxembourg Taxation

The following is a general description of certain Luxembourg tax considerations relating to the Bonds. It specifically contains information on taxes on the income from the Bonds withheld at source and provides an indication as to whether the Issuer assumes responsibility for the withholding of taxes at the source. It does not purport to be a complete analysis of all tax considerations relating to the Bonds, whether in Luxembourg or elsewhere. Prospective purchasers of the Bonds should consult their own tax advisers as to which countries'

tax laws could be relevant to acquiring, holding and disposing of the Bonds payments of interest, principal and/or other amounts under the Bonds and the consequences of such actions under the tax laws of Luxembourg.

This overview is based upon the law as in effect on the date of this Prospectus. The information contained within this section is limited to withholding taxation issues, and prospective investors should not apply any information set out below to other areas, including (but not limited to) the legality of transactions involving the Bonds.

Withholding Tax

All payments of interest and principal by the Issuer in the context of the holding, disposal, redemption or repurchase of the Bonds can be made free of withholding or deduction for or on account of any taxes of whatsoever nature imposed, levied, withheld, or assessed by Luxembourg or any political subdivision or taxing authority thereof or therein in accordance with applicable law, subject however to the application of the Luxembourg law of 23 December 2005 as amended introducing a final tax on certain payments of interest made to certain Luxembourg resident individuals (the "**Law**"). Payment of interest or similar income (within the meaning of the Law) on debt instruments made or deemed made by a paying agent (within the meaning of the Law) established in Luxembourg to or for the benefit of an individual resident of Luxembourg who is not a tax resident of another state and who is the beneficial owner of such payment may be subject to a final tax at a rate of 20 per cent. Such final tax will be in full discharge of income tax if the Luxembourg resident individual beneficial owner acts in the course of the management of his/her private wealth. Responsibility for the withholding and payment of the tax lies with the Luxembourg paying agent. An individual beneficial owner of interest or similar income (within the meaning of the Law) who is a resident of Luxembourg and acts in the course of the management of his private wealth may opt for a final tax of 20 per cent. when he receives or is deemed to receive such interest or similar income from a paying agent established in another EU Member State or in a Member State of the EEA which is not an EU Member State. Responsibility for the declaration and the payment of the 20 per cent. final tax is assumed by the individual resident beneficial owner of interest.

Luxembourg Taxation - Automatic Exchange of Information

The Organization for Economic Co-operation and Development ("**OECD**") has developed a single global Standard for Automatic Exchange of Financial Account Information in Tax Matters to achieve a comprehensive and multilateral automatic exchange of information on a global basis. On 9 December 2014, the European Council of Economic and Financial Affairs adopted Directive 2014/107/EU amending the Directive on Administrative Cooperation in the Field of Taxation 2011/16/EU (the "**DAC**") implementing the aforementioned Standard among the Member States by enlarging the scope of the mandatory and automatic exchange of information ("**AEI**") between Member States' tax administrations with effect as from the 1 January 2016 (2017 in Austria). The DAC was implemented into Luxembourg law by the law of 18 December 2015 on the automatic exchange of financial account information in the field of taxation. The revised DAC requires Luxembourg Financial Institutions ("**FIs**"), broadly defined, including investment funds and custodian institutions, to report information concerning direct account holders and controlling persons of passive non financial entities, who are resident in another E.U. Member State, and information concerning their account at stake and the payments they received to the FI's tax authority. The additional information is related to interest, dividends, and other income from assets held by a custodial institution, sales and redemption proceeds from financial assets, as well as financial information such as aggregated annual accounts data. FIs are required to identify tax residency of account holders and investors and to annually report financial account information as from 1 January 2016.

A number of non-EU countries, and certain dependent or associated territories of certain Member States, have agreed to adopt similar measures (either provision of information or transitional withholding) in relation to payments made by a person within their jurisdiction to, or collected by such person for, an individual resident in a Member State. In addition, the Member States have entered into reciprocal provision of information arrangements or transitional withholding arrangements with certain of those dependent or associated territories in relation to payments made by a person in a Member State to, or collected by such person for, an individual resident in one of those territories. Some of those measures have been revised to be aligned with the DAC and other such measures may be similarly revised in the future.

Investors should inform themselves of, and where appropriate take advice on, the impact of the DAC on their investment.
