Supplier invoicing instructions

20-10-2025 updated: Susa Blomroos/ Anders Wiberg

General

We focus to streamline our operations by speeding up the purchase invoice handling and -approval cycle through process automation.

In order to ensure smooth invoice handling and positive ecological impacts, we require suppliers to deliver invoices electronically and with correct invoice references.

We will return invoices that we are unable to process due to incomplete references.

We prefer to only use suppliers with a payment term of minimum 45 days net.

We request suppliers to submit order confirmation and it also electronically.

Supplier invoicing instruction – invoice references

Invoice need to include following references:

Order number – Cost center – Purchaser name

OR

Cost center – Project number – Purchaser name

OR

Cost center – Account number – Purchaser name

Glossary of names/fields

- *Order number* can be found from purchase order and is in format POxxxxxxFI1
- *Cost center* can be found from last page of this instruction document
- *Purchaser name* means person to who invoice is addressed to. Information of purchaser name in different entities can be found from the last page of this instruction document

- If you have not received sufficient information from your Quant purchaser, **ask him/her for the necessary invoice reference information before sending the invoice.** If the invoice lacks sufficient reference information, we will request a credit invoice and a new invoice with the necessary information.
- The invoice should include what has been purchased, when and what has been the delivery date for the material or service.
- If your invoice contains several projects / purchase orders, please put the data at the line level.

Supplier invoicing instruction – electronic invoice

Info on electronic invoice:

OVT 003725885562

Operator: Basware

Agent ID: BAWCFI22

Bank: Nordea IBAN FI89 1745 3000 1741 20

- Please make sure the information below is in the correct fields:
- In the “Reference” field: Cost center / Account number (if available) / Purchaser name
- In the “Purchase Order” field: Purchase order number
- In the “Project” field: Project number

Supplier invoicing instruction – PDF invoice

Emailing of invoice:

quant.finland@bscs.basware.com

The invoice must be in PDF format

Subject: 'Quant Finland Oy'

In the message section you should include Quant's OVT

ID '003725885562'

After successful invoice submission you will be notified by Basware with the following message:

Dear lähettäjän sähköposti

Basware Scan and Capture service has successfully received the email you sent to quant.finland@bscs.basware.com. The business documents attached to your email have been sent to processing.

We will send you another notification when the business documents have been successfully processed and sent to the recipient. Normally, this takes around 1-2 business days. The notification will also include the updated filenames that the service generates for your business documents. We will notify you, if we cannot deliver the business document to the recipient.

[Laskudokumentin nimi.pdf](#)

To make sure that your customer can process your invoices fast and without errors, send the invoice PDF files in a machine-readable format. Make sure that the text on the invoice is selectable on the PDF and that the PDF is not an image of the actual invoice.

Thank you,
Basware

Supplier invoicing instruction – Contact

If you have any questions regarding correct invoicing, please contact directly the purchasing entity / site (contact list in the last page of this instruction document)
